3. RESOLUTIONS

3.1 Resolution #850-25

A resolution amending the 2025/2026 Operating Budget of Revenues and Expenditures for a Community Drone Show

Motion to Amend the amendment by Councilman Regan

Second to Amend the amendment by Councilman Bonin

Discussion: Graham proposed adding a drone show to the annual Christmas event to create a great experience and draw thousands of visitors to the city. A video was presented to the council of a 300-drone show. After reaching out to multiple companies that offer this show, the best price is \$30,000 per performance for a 300-drone show, half the usual cost, if the city signs a three-year agreement. The show would last around 15 minutes. Mayor Bourque proposed that the drone show serve as the grand finale of the city's Christmas event, following the parade and tree lighting. To ensure the best value, three quotes were collected before presenting the item to the council. Council Regan requested that the council amend the resolution from a \$20,000 allocation to \$30,000, specifying that the funds would go to the BEDC budget to hire the company responsible for producing the drone show.

3.2 Resolution #851-25

A resolution amending the 2025/2026 Operating Budget of Revenues and Expenditures for adding a turning lane on West Main Street at the intersection of West Main Street and South Bernard Road

Motion by Councilman Bonin

Second by Councilwoman Girouard

Discussion: Daniel informed the council that a new right-turning lane will be added on Main Street at the intersection of Main Street and S. Bernard Road. The project involves installing signage, widening the pavement by 11 feet, tapering the lane, and expanding the turning radius. This will create space for about five vehicles, roughly 20 feet, to allow for a right turn. In response to Councilman Bonin's question, Daniel clarified that no changes to the streetlights are needed, aside from possibly adjusting the timing and no new signal heads will be added. Walter added that, due to ongoing development in the area, the traffic engineer recommends conducting a traffic study annually to keep up with changing conditions. Mayor Bourque stated that S. Bernard Road is becoming a busier route, and the proposed changes would help ease traffic congestion in the area.

Final Resolution: Motion Approved

3.3 Resolution #852-25

A resolution authorizing rules for the use of the Broussard Event Center

Motion by Councilman Allen

Second by Councilwoman Girouard

Discussion: Mayor Bourque shared that Gerald worked with the city to develop a rental package for the event center, outlining the proper procedures, required paperwork, and insurance details for potential renters. Councilwoman Girouard raised concerns about clearly listing prohibited items in the rental package and Mayor Bourque agreed that prohibited items would be included. Gerald clarified that rental fees would be refunded in emergencies, though booking fees are non-refundable. The mayor also stated the city would work with renters to reschedule in such cases.

Final Resolution: Motion Approved
